

Our business is to add value to our clients. It is as simple as that. But Mantec methodology is also based on the long term objective of piloting our clients to build a platform for continuous improvement, after we have left.

What we do – Mantec is a consultancy that through projects improves efficiency, reduce operating costs, increase productivity, shorten lead and throughput times, takes away inventory, improve delivery accuracy and boost sales. Mantec do not just give advice – WE IMPLEMENT

How we do it – We initially analyse the gap between current status and preferred state. After that improving efforts are implemented and anchored closely with the clients. All our projects are evaluated against client agreed targets.

The Effect of a Mantec project is improved efficiency. We train, coach and implement solutions that build lasting results and are measurable, on all organisational levels. Mantec projects on average gives a Return on Investment of 4 to 1. Ranging from 2.5 to 1 to more than 6 to 1 depending on client business and size.

Our capabilities range from a number of different activities. One thing penetrates all our work that is to improve performance. Here is list of operational areas and activities that we help clients to improve:
